## ACCESS THE PLATFORM

# ENNEPLUS COMMUNITY OF PRACTICE

ENHANCING VET NATIONAL NETWORKS THROUGH DIGITAL ECO-INNOVATION

<https://cop.enneplusproject.eu/>

The platform is intended for connecting people from different backgrounds and interests, and therefore you must register according to your role. If you belong to a VET Team that is going to compete, whether you are a teacher or a student, you must register by following the steps below:

## 1° You will have to enter the account details:

- **Username:** You will have to follow the formula [Country Code][Team Assigned Number]-[First Name][Surname/s].  
E.g.: ES09-GracielaSanchezVicario.
- **Email Address:** Enter your email address.
- **Choose a password:** Try to choose a secure password. We recommend that you use one that includes upper case letters, lower case letters and some special characters.

### Account Details

Username Required

Email Address Required

Choose a Password Required

Strong

Confirm Password Required

## 2<sup>nd</sup> You will have to enter the account details:

- **Name and surname.**
- **Organization: Name of the educational establishment (VET Center) you represent.**
- **Country: Remember to introduce it in English.**
- **Role: Here you should choose a role depending on whether you are a teacher or a student (in the case of VET Teams):**
  - **Teacher**
  - **Student**
  - **Mentor**
  - **Local community agent**
  - **Other**
- **Accept the consent form**

An email with an activation link will be sent to the email address provided during registration. Open the link and accept the activation code.

**Tip: Check your spam folder. If this does not work, please contact technical support: [enneplusplatform@gmail.com](mailto:enneplusplatform@gmail.com)**

Once your account is activated, you will receive a welcome email to the platform.

# Welcome Homepage

The welcome page is the first page you will find when trying to access the website 'https://cop.enneplusproject.eu/' and provides a brief introduction to the project, so that its objectives are generally understood.

Two buttons are also provided, one of which takes you to the official website of the project and the other to the section of the same platform where the Eco-Digithon methodology is discussed.

## ENNEPlus Community

Welcome to the ENNEPlus Community of Practice!!

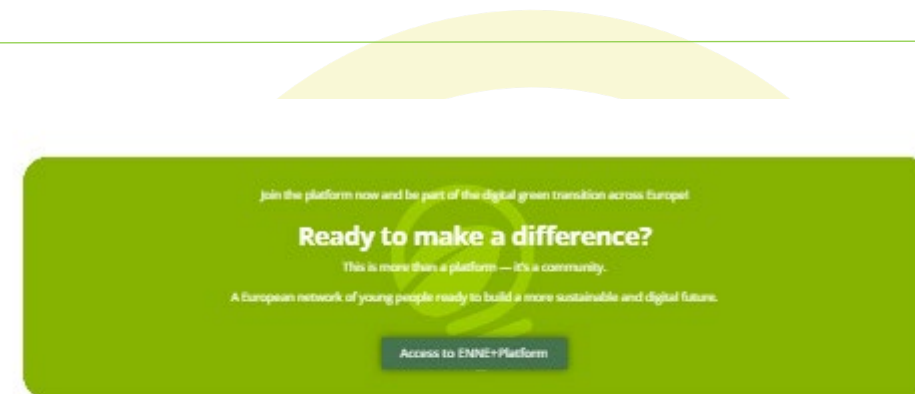

An initiative launched by ENNEPlus project partners to enhance VET (Vocational and Educational Training) National Networks through Eco-Innovation. The ENNEPlus project will adopt an innovative approach by scaling up the **Social Hackademy Methodology**. This methodology tries to improve the digital skills and competences of young people from disadvantaged backgrounds through collaborative educational activities. The project will improve and adapt this methodology to the VET sector (named **Eco-Digithon methodology**), and implement it across four different partner countries (Italy, Spain, Portugal, and Austria) as well as at a European level through the involvement of two Europe-wide networks.

In this platform you can get information about how the Eco-Digithon Methodology approach can help VET students to acquire new digital and green skills through the development of digital and technological solutions addressing environmental and sustainable challenges and involving their local communities.

You can also interact with CoP members and even be a part of our community as all people are welcome to participate. If you are a VET center, you can also participate through this platform in the Eco-Digithon events.

Visit the ENNEPlus Website

Join the Eco-Digithon

📖 ? If you have any doubts about the operation of the platform, download the User Manual 📖 ?

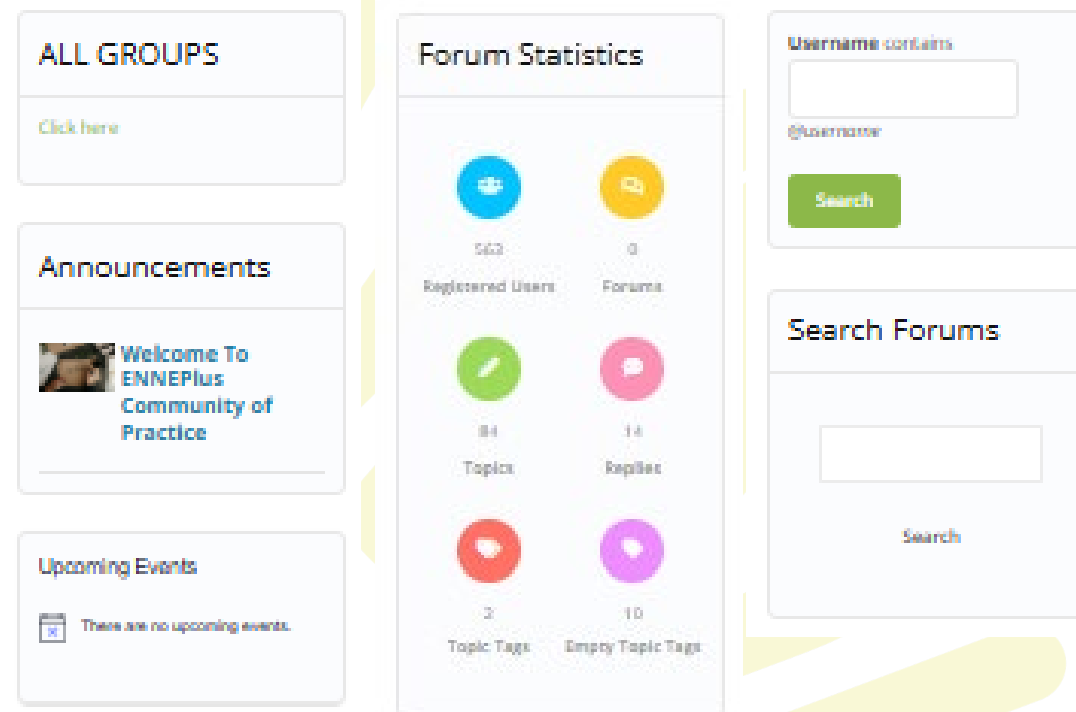

ENNE+Platform Guide for users

The home page also includes a section on **when the Eco-Digithon takes place, images, direct access to the international platform group, and the user guide (available for download).**

## Side bar

In the sidebar we find different areas that provide us with relevant information while we browse the website, such as:

- **All Groups:** direct access to the repository of all groups available within the platform.
- **Announcements.** Where you can find news or relevant information about the project, the platform, and the Eco-Digithon editions that we want to communicate to all members of the platform.
- **Upcoming events.** Where you can see the date and time of upcoming events. These may be aimed at some or all members (for more information, open the event)
- **Statistics:** shows registered users, topics created, responses, etc.
- **User search:** to find your acquaintances more easily.
- **Search Forums:** to find specific forums more quickly..

The sidebar and the footer will always accompany us throughout the website, except on the homepage, in the personal space and in the private groups corresponding to the different collaborative spaces.

### Footer

In the footer we also find different areas that provide us with relevant information while we browse the website, such as:

- **Social Media.** Here you will see different icons that correspond to the social networks of the ENNEPlus project and if you click on them you will be redirected to these social networks. In order (from top to bottom) they appear: the website <https://www.enneproject.eu/enneplus/>, LinkedIn, the YouTube channel and Facebook.
- **User search:** to find your acquaintances more easily.
- **All groups:** Where you can click and go directly to the group directory.
- **Groups.** Where you can see the latest groups created, the groups with the latest activity, the most popular groups and the top 5 groups in alphabetical order.

~ About the Community of Practice (CoP)

## ENNEPlus Community of Practice (CoP)

The **ENNEPlus Community of Practice (CoP)** is a key element of the project's strategy to foster collaboration, knowledge exchange and innovation among Vocational Education and Training (VET) professionals and students across Europe.

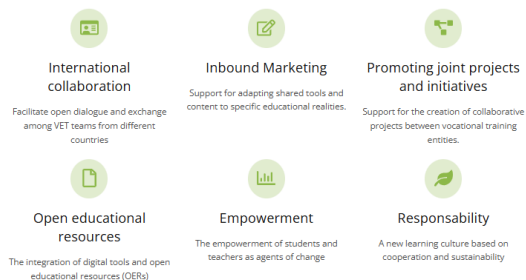

This virtual space brings together VET providers, educators, learners and stakeholders from four partner countries — Italy, Spain, Portugal, and Austria — as well as representatives from European-level networks. Its main purpose is to **support eco-innovation and digital transformation** in VET through shared experiences, co-designed activities, and peer learning.

The **Governance of the CoP** is shared among the partners of the ENNEPlus project, being coordinated by the Spanish organization Innogestiona Ambiental and each of them taking a leading role according to their respective profile.

## A Transnational and Collaborative Space

The ENNEPlus CoP is built around a **single international collaborative space**, designed to:

## 2. Eco-Digithon

This is an informative page, where you can find all the information about the Eco-Digithon (definition, methodology, calls and application).

[Back to INDEX](#)

[Back to MENU](#)

The drop-down menu provides access to specific content related to the Eco-Digithon editions.

Within the general section of Eco-Digithon, you will find the **methodology used** in the competition, direct access to the **summary of the last edition**, information on **when the next edition** will take place, as well as the **rules for each call** for entries and information on **who can participate**, **why you should participate**, and how you can **benefit** from doing so.

### WHO CAN PARTICIPATE

- Vocational Education and Training (VET) centre, public or private;
- High schools actively build students' digital, green, or tech skills.

How many people?

- At least 20 students;
- 2 teachers or trainers from different subject areas.

### 3 REASONS TO GET INVOLVED

- A unique opportunity to strengthen and scale up curricular and extracurricular projects in the field of eco-innovation.
- Tackle real-life environmental and social challenges of your community, turning ideas into action, from classroom projects to real-world solutions;
- Contribute to the UN Sustainable Development Goals (Agenda 2030).

### 5 THINGS YOU GAIN

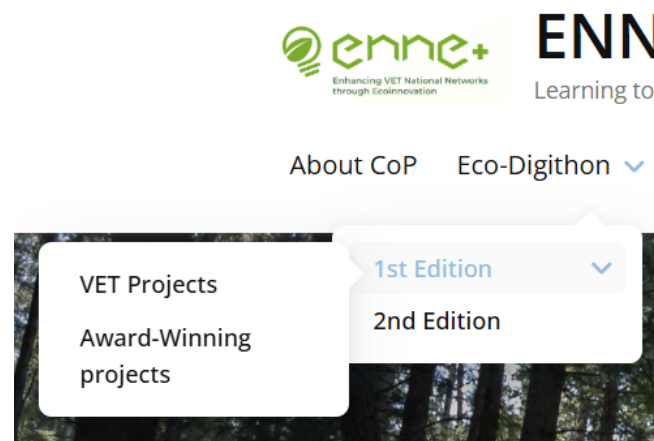

- Exclusive access to the ENNEPlus Community of Practice on eco-innovation;
- Peer learning with schools from across Europe;
- Expert mentoring and customised resources on 10 key global environmental topics;
- Job-shadowing and mobility opportunities for teachers/trainers;
- A chance to win awards and recognition at the final Eco-Digithon showcase!

## 2. Eco-Digithon

### 1st Edition

[Back to INDEX](#)

[Back to MENU](#)

The drop-down menu give access to VET projects participating in the 1<sup>st</sup> edition of the national Eco-Digithon competitions and the award-wining projects.

Clicking on '1st Edition' takes you to a page that gives brief and concise information about this First Edition of the Eco-Digithon.

You will see a summary of the edition, as well as images and a reminder of when the next edition will take place.

### The First Edition of the Eco-Digithon: Innovation Comes to Spello

From July 3rd to 5th, 2025, the picturesque town of **Spello**, in the Umbria Region (Italy), became the vibrant setting for the first international edition of the **Eco-Digithon**, an initiative under the ENNEPlus project aiming to empower VET students through digital and green innovation.

The event brought together the **winning teams** from four national hackathons held in **Austria, Italy, Portugal and Spain**, where young participants had co-created local solutions to pressing environmental challenges. In Spello, they shared and presented their projects in the framework of the **VIX Edition of the Social Hackathon Umbria**, an established European event dedicated to social impact through technology and community-driven innovation.

During the event, participants benefited from a wide range of enriching experiences that combined learning, collaboration, and exchange.

Please, visit the [VET Projects](#) section to meet the VET teams and their project for this first edition of the Eco-Digithon.

Also, visit the National Eco-Digithon is held, in the [Award-Winning Projects](#) section, where you will find the winning projects and can obtain more information about the ideas developed.

#### DO YOU HAVE IDEAS FOR CHANGING THE WORLD THROUGH VOCATIONAL TRAINING?

Following the great success of the first Eco-Digithon, the call for participation in the next edition, scheduled for 2026, is now open. [Click here to apply.](#)

Eco-Digithon 2026, challenge the future, create the change:  
call for participation from **15 September 2025!**

### Eco-Digithon is back!

SECOND EDITION OF ECO-DIGITHON

[Learn more about the Eco-Digithon](#)

#### VET Projects

The VET teams selected to participate in the First Edition of the Eco-Digithon that will take place in Austria, Italy, Portugal and Spain have different educational approaches and come from different socio-cultural contexts and environments with different sustainability challenges, so here we briefly introduce you to these teams.

Below, you will be able to access the VET groups in each country, with a **presentation sheet** of each one and an **explanatory document of each project**, which will be available after the National Eco-Digithon of the corresponding country.

Austria

Austrian Groups

Italy

Italian Groups

Portugal

Portuguese Groups

Spain

Spanish Groups

In this section we have the presentation of the projects that are going to participate in this first edition of the Eco-Digithon. First there is a brief introduction and below we find 4 buttons, each one corresponding to a participating country (Austria, Italy, Portugal and Spain), and by clicking on one of these buttons we will access a page with the **presentation sheets** of the VET teams of that country that have been selected to participate in the 2025 Eco-Digithon. The presentation sheets have the following appearance:

#### ES- GROUP 2

##### Brief Description of the Group

The VET school Sáenz de Buruaga is located in Extremadura (Spain). The team is composed by 50 students from the Higher VET Programme on Clinical and Biomedical Laboratory. The project aims to develop and implement an integrated system for sustainable waste management in clinical biomedical laboratories, aligned with the principles of the circular economy. The project promotes the reuse and recycling of materials, reduces operational costs, and contributes to the development of sustainable practices that can be extended to other laboratories or related industries.

##### Linked Challenge-Based Learning Scenario (CBLS)

4. Environmental awareness

7. Circular Economy

##### Sustainable Development Goals (SDGs)

Eco-Lab: Sustainable  
Waste Management  
in Clinical  
Laboratories  
Project Title

- 1) Project title
- 2) VET School, Country
- 3) Brief description of the Group
- 4) Linked CBLS
- 5) SDGs

In this section, you will find all the winners of the National Eco-Digithons in Austria, Italy, Portugal, and Spain.

For each winner, the name of the project, the name of the school, the objective, the solution, and the SDG challenge associated with their project are detailed.

At the very end, you will also find information about the next edition of Eco-Digithon.

### Austrian Award-Winning Projects

#### Objective

Enhance Efficiency of the energy output of PV facilities of the company futura.

#### Solution

Combination of different solutions: Ice storage, selection of the most efficient battery, energy communities

#### Challenge

Finding correct data and finding evaluation criteria, that will be valid in the long run

### Italian Award-Winning Project

#### Objective

Reduce the excessive waste production of electrical, electronic and mechanical items.

#### Solution

An automation prototype of an automatic gate build with more than 90% of recycled materials.

#### Challenge

Circular economy  
Green Construction

### Portuguese Award-Winning Projects

#### Objective

On the Route of the King's Egg promotes environmental sustainability and local economic development through a certified hiking route and mobile app that immerse visitors in the region's mushroom biodiversity, gastronomy, and cultural heritage.

#### Solution

It created an eco-digital tourism product—a mobile app and hiking route—that connects visitors with nature, local producers, and restaurants, fostering biodiversity protection and community-based economic growth.

#### Challenge

The project addressed the depopulation and economic stagnation of low-density territories like Arganil, where biodiversity and local products were undervalued and lacked sustainable tourism promotion.

### Spanish Award-Winning Projects

#### Objective

Improve transportation and thus access to other opportunities in rural areas through the development of a digital platform for transport planning/management within the local community

#### Solution

A mobile or web application to identify rural transport routes, connect users and facilitate access to services.

#### Challenge

Sustainable transport

If you click on the tab Eco-Digithon, you can also select the **'2<sup>nd</sup> Edition'** menu section.

CHECK THE INFORMATION BELOW TO LEARN HOW YOU CAN GET INVOLVED!

- 📍 Are you a VET centre bases in Italy? Check the [Italian call](#)
- 📍 Based in Spain? Check the [Spanish call](#)
- 📍 Based in Portugal? Check the [Portuguese call](#)
- 📍 Based in Austria? Check the [Austrian call](#)
- 📍 From another EU or non-EU country? Check the [International call](#)

#### WHO CAN PARTICIPATE

- Vocational Education and Training (VET) centre, public or private;
- High schools actively build students' digital, green, or tech skills.

#### How many people?

- At least 20 students;
- 2 teachers or trainers from different subject areas.

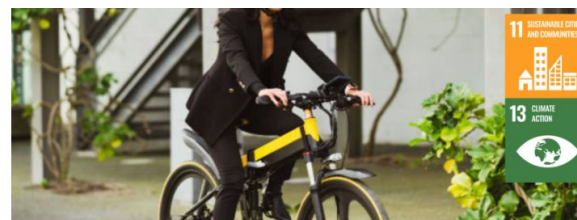

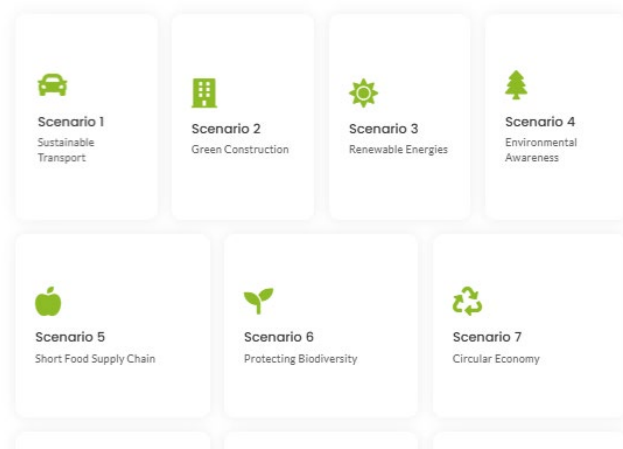

In this section, you will find all the information about the edition. Such as the **start date, information about the call for each country** for the national Eco-Digithons. Each call includes specific guidelines for each country.

It also includes general information about **who can participate, 3 reasons why you should participate, and what benefits you get from doing so.**

A space where you can access inspiring content, practical tools and educational materials

There are **10 ENNEPlus Challenge-Based Learning Scenarios (CBLs)** to represent hypothetical cases, related to one or more **Sustainable Development Goals of the UN Agenda 2030**.

By clicking on the scenario, any user can access the scenario information and project requirements related to the scenario.

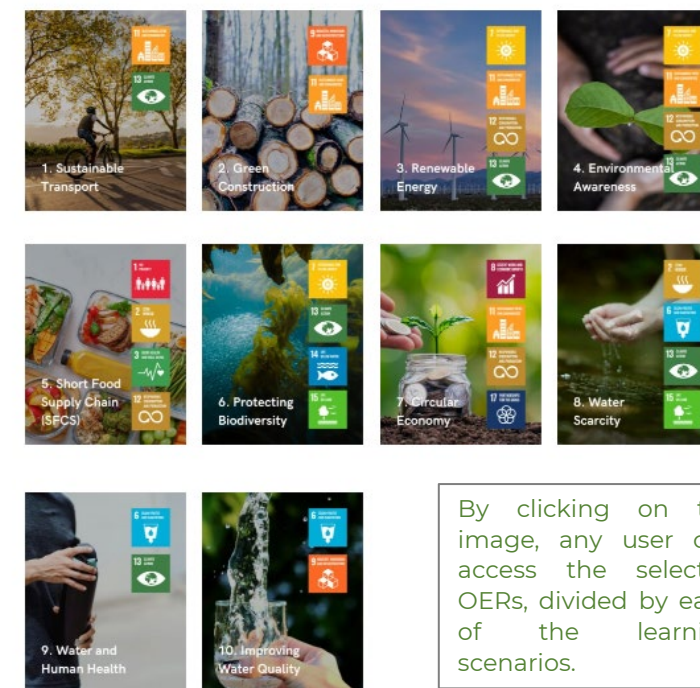

### Scenario 1: Sustainable Transport

This Challenge-Based Learning (CBL) scenario on Sustainable Transport focuses on enhancing urban sustainability through the optimization of public transportation systems. By engaging VET students in interdisciplinary teams, the project aims to address the pressing issues of carbon emissions, inefficiency, and public disengagement related to public transport. Collaborating with local government and public transport companies, students will conduct in-depth research, develop innovative solutions, and create prototypes to improve the city's transportation network. The project emphasizes real-world problem-solving, critical thinking, and collaboration while aligning with Sustainable Development Goals 11 and 13. Ultimately, the project seeks to foster a more sustainable, efficient, and community-oriented public transportation system.

General information about the project, defined task of the project/challenge, Objectives of the project, Outcomes, impact of the project, Open Educational Resources, references, etc,

**Open Educational Resources (OER)** are freely available and openly licensed educational materials that can be used, modified, adapted and shared by anyone.

By clicking on the image, any user can access the selected OERs, divided by each of the learning scenarios.

Contact section for actors (**Italy, Spain, Portugal, and Austria**) in the green sector to sign up to become **Eco-ambassadors** and be interviewed.

### Ecoambassadors

Are you an innovator in the green sector? Do you advocate for environmental sustainability and climate change awareness? Would you like to share your story and expertise at EU level?

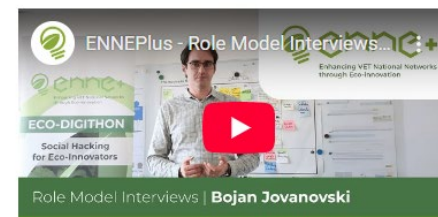

We are looking for **twelve role models in Italy, Spain, Portugal and Austria** for the realization of **inspirational interviews** that can guide and support the VET teachers and students who will join the first round of **Eco-Digithons** in the design of innovative solutions to the ecological challenges of their respective communities.

Get in contact with the ENNEPlus team!

In addition, short videos present the Role Models who are currently involved in the project for each participating country.

### Role Models of ENNE+ project

AUSTRIA

## 4. Collaborative space

### Description

[Back to INDEX](#)

[Back to MENU](#)

In the **collaborative space** section, you will find the groups we offer.

Such as the **International Collaborative Space, Blended Course (groups)**, direct access to the **videoconferencing tool**, and a **calendar** where you can see all events and meetings.

**Note: This section will be updated at each Eco-Digithon with the different participating national groups.**

#### Collaborative Space

The collaborative spaces of the **Virtual Community of Practice (CoP) Platform** are closed groups designed to facilitate interaction and collaboration among ENNEPlus project members. These spaces allow for knowledge sharing, idea exchange, resolution of common challenges, and development of joint projects in an organised and secure manner.

A key component is the **International Collaborative Space**, created to enrich the experience of participants by building a transnational community of practice. This space provides the necessary tools for all members of the platform, regardless of their country of origin, to communicate, collaborate and share initiatives aimed at sustainable and digital development.

**February 14**

**Rebeca**  
Dear all, 09:55

**Barbara Ojalvo**  
Good morning!

**Write your message**

By clicking on the 'New Conversation' icon, you can start a new conversation with a person or a group of people. In the next slide we will see how to do it step by step.

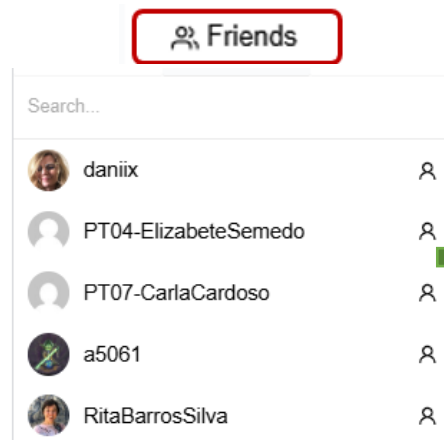

In the search bar, you can search for any member of the platform by their username, any friend, any group or any message (by entering a keyword).

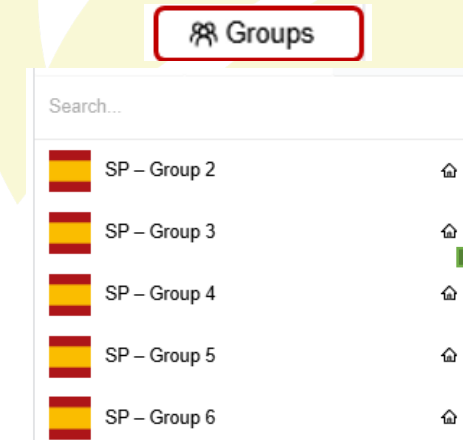

In addition, we have the Messages, Friends and Groups tabs:

If we click on Messages, all the chats we are part of are displayed on the left side of the messaging application, ordered from top to bottom, from the chat with the most recent messages or reactions to the chat with the oldest updates.

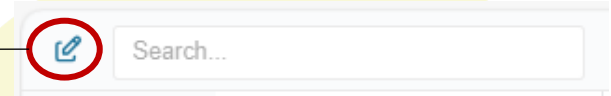

If we click on Friends we will see a list of our friends on the platform, so we can select one of them to start a private chat with that person or click on the profile icon to go directly to their profile.

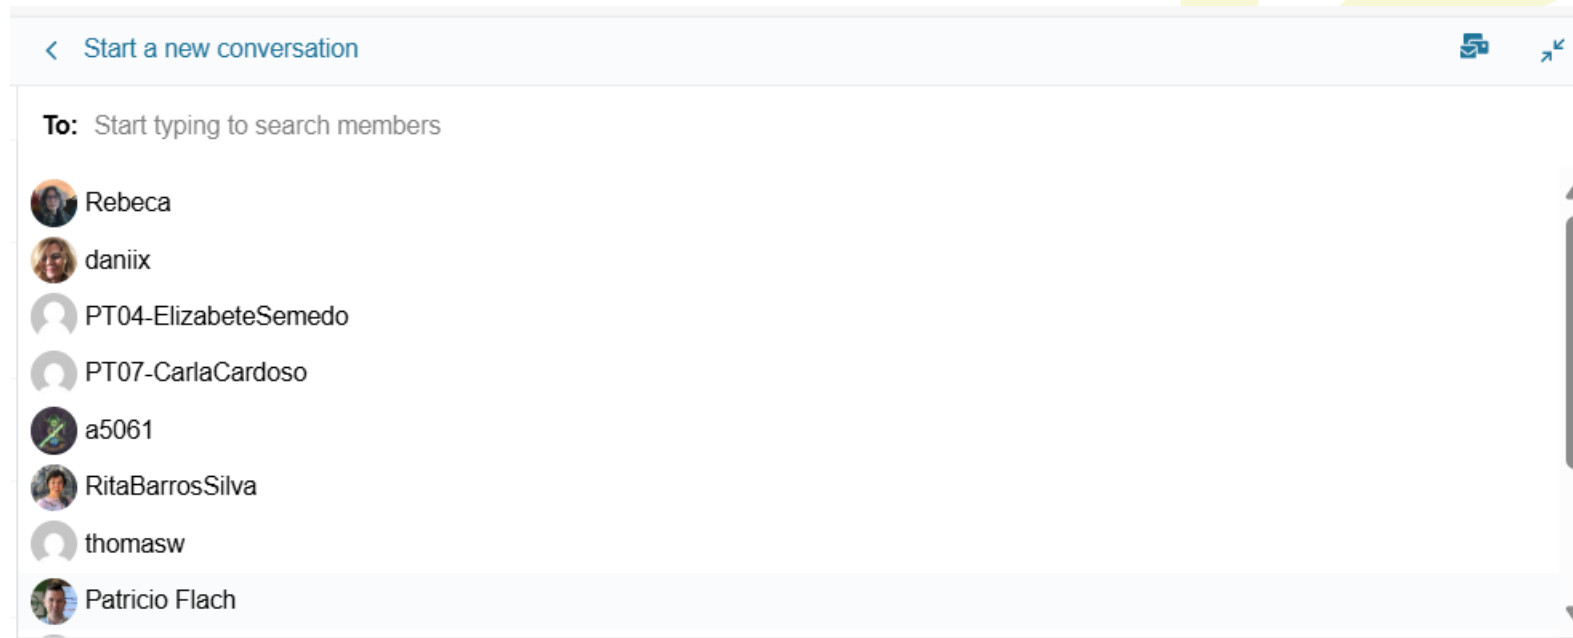

If we click on Groups we will see a list of the groups we are part of, so we can select one of them to start a private chat with that group (all the members of the group) or click on the home icon to go directly to the main page of the private group.

By clicking on the 'New Conversation' icon, you can start a new conversation with a person or a group of people.

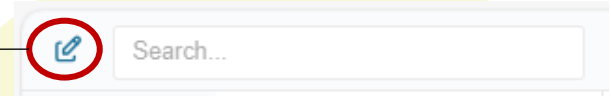

We are going to see how to create a new conversation step by step:

**Step 1** - Select the person or persons who are going to be part of the conversation. A list of our friends appears but if we start typing the username of another member it will suggest the person and we can select them.

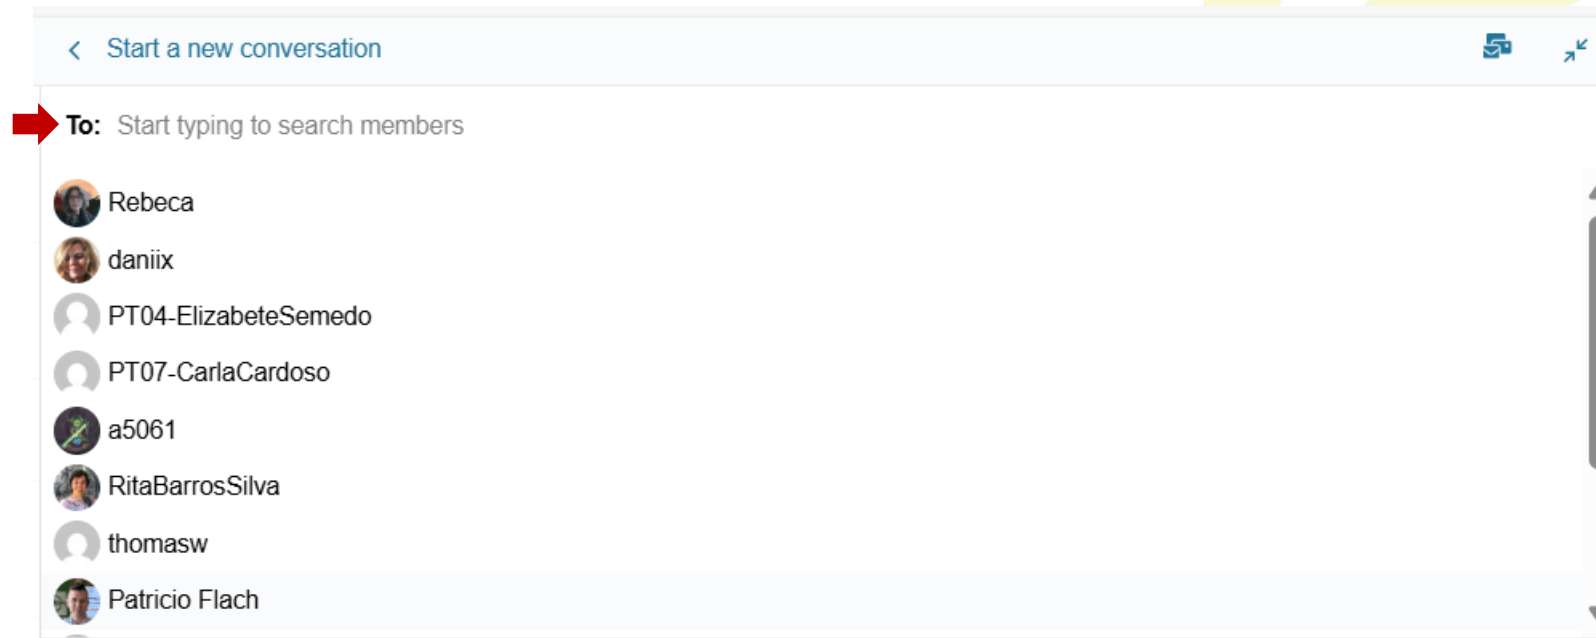

By clicking on the 'New Conversation' icon, you can start a new conversation with a person or a group of people.

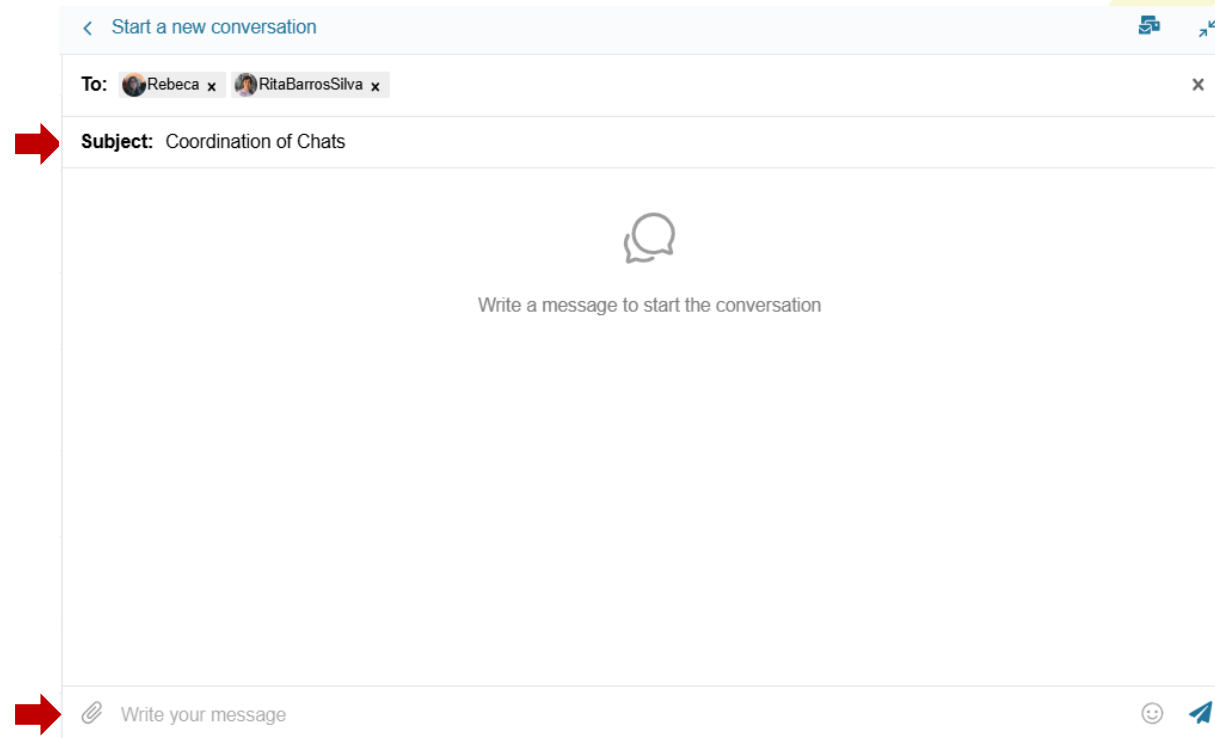

We are going to see how to create a new conversation step by step:

**Step 1** - Select the person or persons who are going to be part of the conversation. A list of our friends appears but if we start typing the username of another member it will suggest the person and we can select them.

**Step 2** - If the chat is going to be more than 2 people (group chat), it will give us the option to add a chat subject.

**Step 3** - In order for the new chat to be saved, you will need to send a first message before leaving.

Other features of the chats have already been explained in the private groups section, however we invite you to explore this wonderful tool, which will be the main and most useful tool to interact and generate a strong community within the platform, so that you can unravel all its most hidden and fascinating functions.

Remember the **key feature of our chat**, **messages are automatically translated into the language you have selected on the platform**, so those you communicate with will be able to write in their language and you will receive their message in your own language.

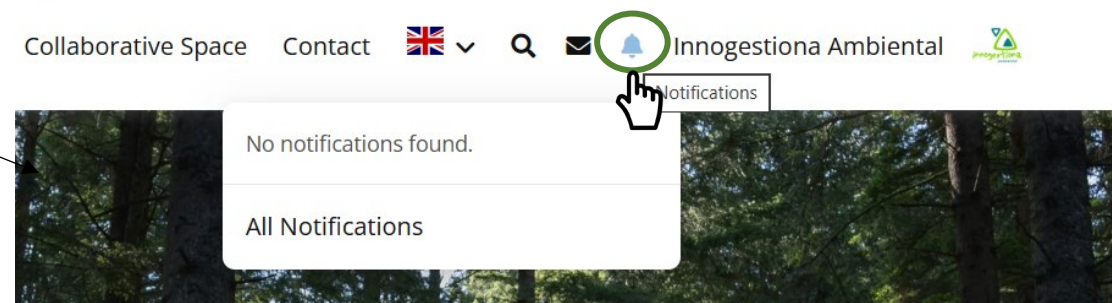

**You don't need to understand the same language to communicate!**

**You will be able to communicate easily with other people from all over the world!**

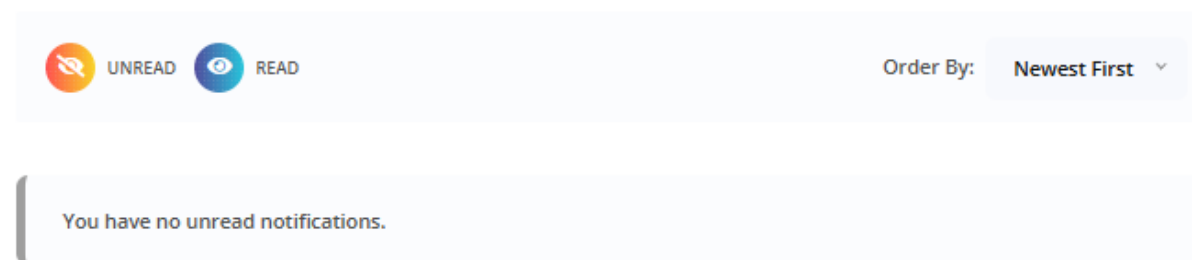

However, we encourage you to communicate in English as well, so that you can practice

Another section of our main menu is the **Notifications** section (bell icon)

If we hover the cursor over the icon the box appears showing unread notifications as well as the possibility to go to our profile area where all notifications are located by clicking on 'All Notifications'.

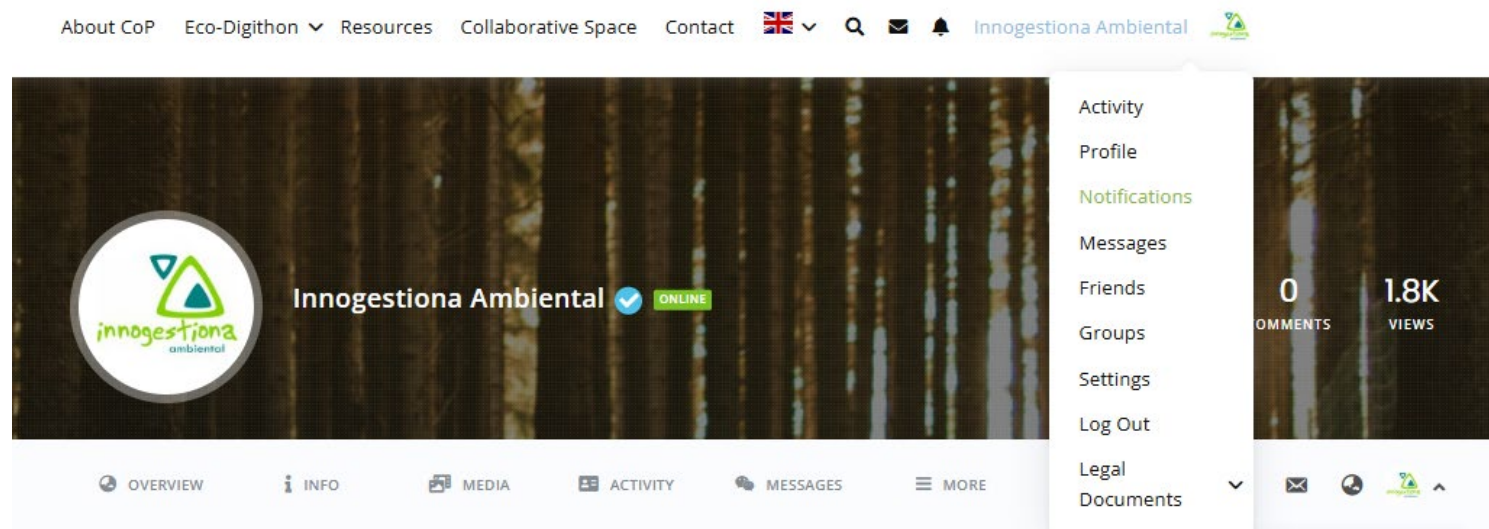

Once in the notifications area of our profile, we will see a section like this, where two tabs appear: Unread, where all unread notifications will appear; and Read, where all notifications already read will appear.

Through your personal space, you have a general view of your activity within the platform, organized in different tabs. Some tabs are public and therefore visible to any member of the platform (**Activity/Profile/Friends/Groups/Forums/Collaborative Documents**). Other tabs are only visible by you (**Notifications/Messages/ Invitations**)

You can also edit your profile (in the **Prolife** tab) and manage your account (in the **Settings** tab).

- [Activity](#)
- [Profile](#)
- [Notifications](#)
- [Messages](#)
- [Friends](#)
- [Groups](#)
- [Settings](#)
- [Log Out](#)
- [Legal Documents](#)

You can access to a detailed explanation on the different tabs by clicking on the following elements

**Activity** tab: Dedicated to show all the activities within the platform related to your personal account, friends and groups. In this section you can see all activities and share a post with the whole community through the Personal tab (open by default).

Inside 'Activity', also we have different tabs:

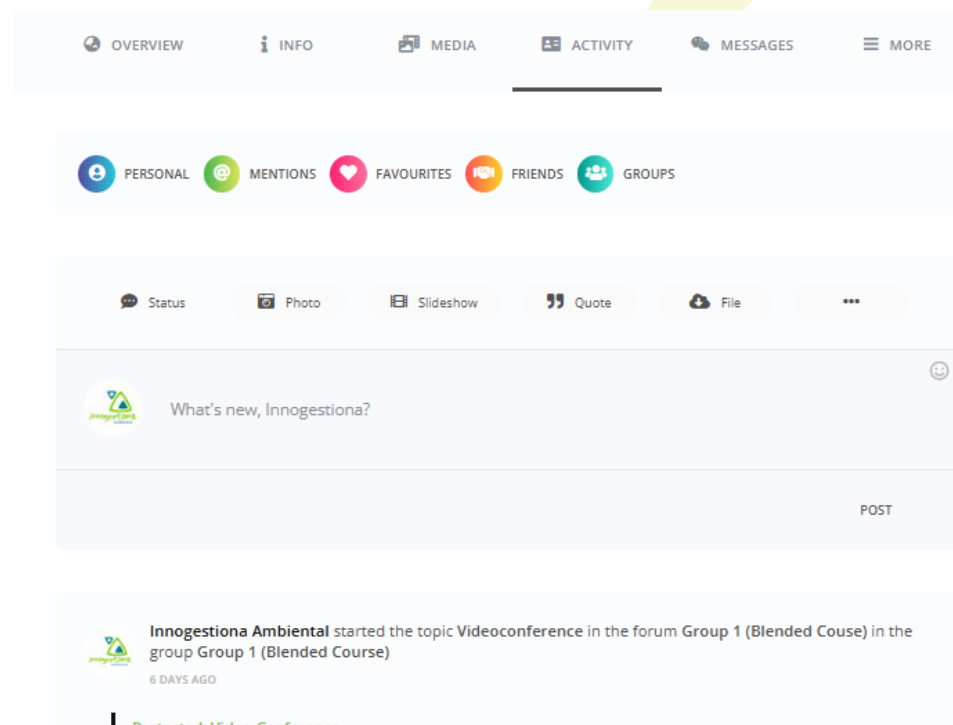

**Personal** → The first activity section, where all the activities related to your account appear. It is a space where you can share whatever you want, it works in the same way as in the private groups (go to this section for more information).

**Mentions** → Where all activity messages from anywhere on the platform where you have been mentioned appear.

**Favourites** → Where all activity posts from anywhere on the platform that you have bookmarked as favourites appear.

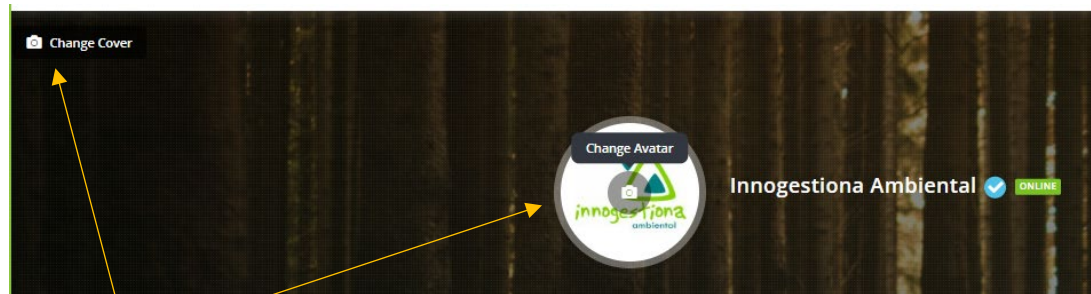

**Friends** → Where all your friends' activity is displayed (so you don't miss anything!).

**Groups** → Where all your groups' activity is displayed (so you can keep up to date with everything!).

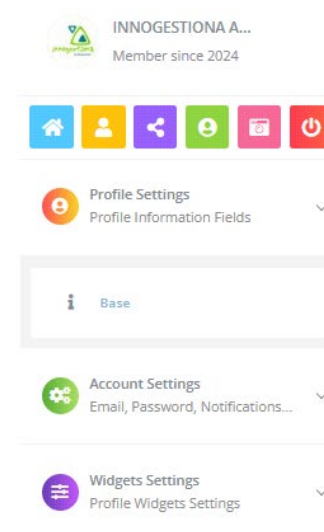

**Profile** tab: In this tab you can see and edit the following elements of your profile:

- Name
- Country
- Organization
- Role
- Consent form

You can **upload a photo** or **take a photo** by giving permission to access the webcam

### Announcements

Welcome To  
ENNEPlus  
Community of  
Practice

A **Community of Practice (CoP)** is a dynamic space established by a group of people who share passion for a specific topic to collaborate on an ongoing basis in order to learn and improve their knowledge in that field. This concept was developed by social theorists Jean Lave and Etienne Wenger in the 1990s.

Most important **benefits** of a CoP:

- Professional and personal development:** Members improve their skills and competences.
- Innovation:** New ideas are generated by sharing and combining knowledge.
- Problem solving:** Allows members to find collective solutions to common challenges.
- Strengthening relationships:** Facilitates the establishment of valuable connections between members.
- Knowledge retention:** Helps document and share important knowledge within an organisation.

The **ENNEPlus Community of Practice (CoP)** brings together all those passionate about environmental and social innovation to find digital solutions to real problems in local communities.

The **main objective** of the space offered here to the CoP is to facilitate the **exchange of information** between the selected European VET schools and their local communities as well as with other national stakeholders in the field of education and digitalisation with a focus on eco-innovation.

Therefore, the CoP aims to connect these educational actors with a wider community of **experts, innovators, activists and other stakeholders** who may be interested in sharing their experience and results in the field, thus supporting the process of co-creation of innovative solutions to the environmental and sustainable challenges that local communities represented by the VET schools face.

The CoP will also serve as a connection and a way to **establish networks and partnerships** between the members involved in the CoP, beyond the solutions and projects developed in Erasmus ENNE+.

Manage consent

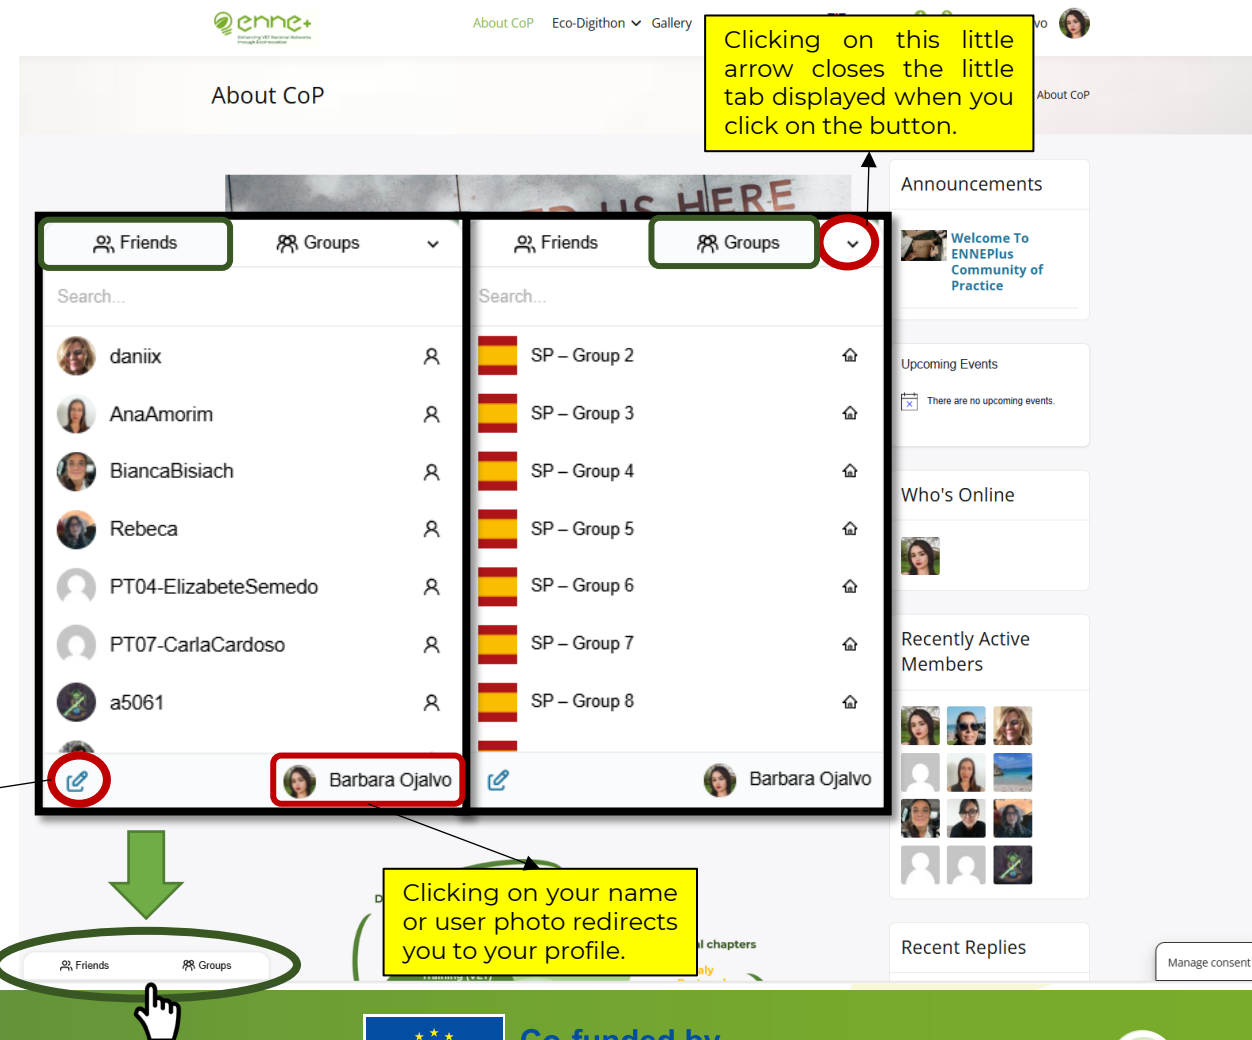

Well, once you have finished choosing cookies and this banner disappears, there will always be a **'Manage Consent'** button that will appear at all times while browsing the website in the bottom right corner, which will allow you to open the cookie banner again in case you decide to change your mind and select another option.

## Chat Button

Like the 'Manage Consent' button, while browsing the platform, we will always be accompanied by two other buttons that appear together in the bottom left-hand corner and which say '**Friends**' and '**Groups**'. If we click on either of them, a small tab will open (without leaving the page where we are) where all our friends and the groups we belong to will appear, respectively, as well as a search bar to look for any person or group in the list. This is a shortcut to be able to send messages more quickly to any of our friends or groups.

When we click on a friend or group, we will be redirected to an open chat with that person or group in our chat section, in our user profile, so that we can contact the desired member or members.

In addition, in this same button we have the possibility to start a new conversation, by being redirected to our chat area in our user profile (indications to start a new conversation given), as well as to go to our profile area directly.

Here you will find:

### Challenge-Based Learning Scenarios (CBLs)

- A button that will allow us to access all the information about each of the scenarios.

### Collaborative Spaces for the Scenarios

By clicking on one of these **Scenarios**, you will be asked to **request membership**.

- Access buttons to the collaborative space for scenarios.

### Video-Conference for Mentoring

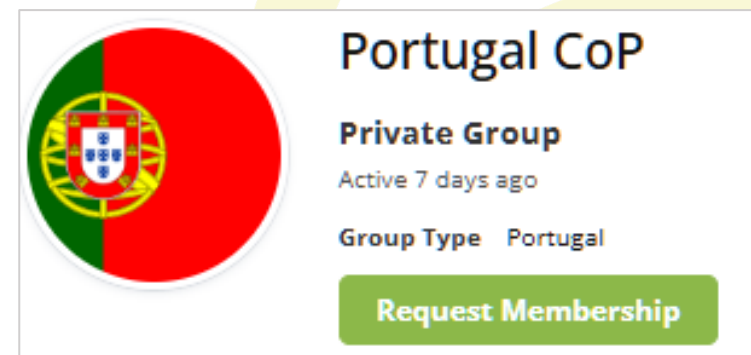

- Access to video-conference tool, which will ask us for a password that only some members of the scenarios will have (technical partners, role models, OER Authors, other mentors and the teachers and students of the VET Teams that are part of these groups).

In this section you will find a brief introduction and a general view of the National Chapters groups created for each participating country in the Eco-Digithon.

By clicking on one chapter, you can access to the collaborative group created for the members participating in the Eco\_Digithon and their national stakeholders as well as any person interested and join the group.

## 4 NATIONAL CHAPTERS

**Portugal CoP**

**Private Group**

Active 7 days ago

Group Type Portugal

[Request Membership](#)

**Note:** You should request membership and be accepted. You can't access the collaborative space unless you are a member of the group.

International Cooperation

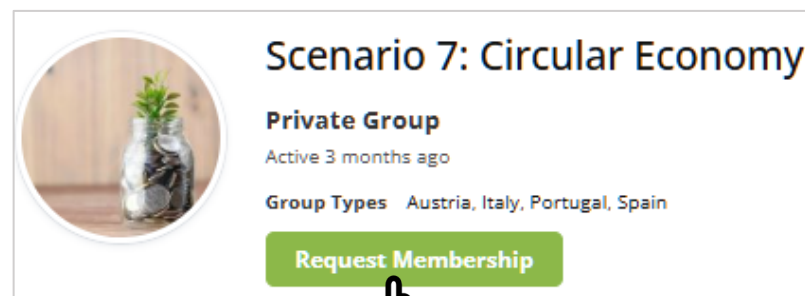

By clicking on the International Cooperation button, you can access to the private collaborative group, although you will need to request membership and be accepted first.

In this section all the members of the ENNEPlus Community of practice are invited to join to **share ideas, information, new tools, researches... everything that can be useful on eco-innovation!**

Also, this space presents the perfect opportunity to **establish connections and networks** with people from all over the world who are interested in digital eco-innovation and the generation of change through new educational models as well as in any of the proposed scenarios and projects presented, so that **future collaboration opportunities** can be created in any of these areas.

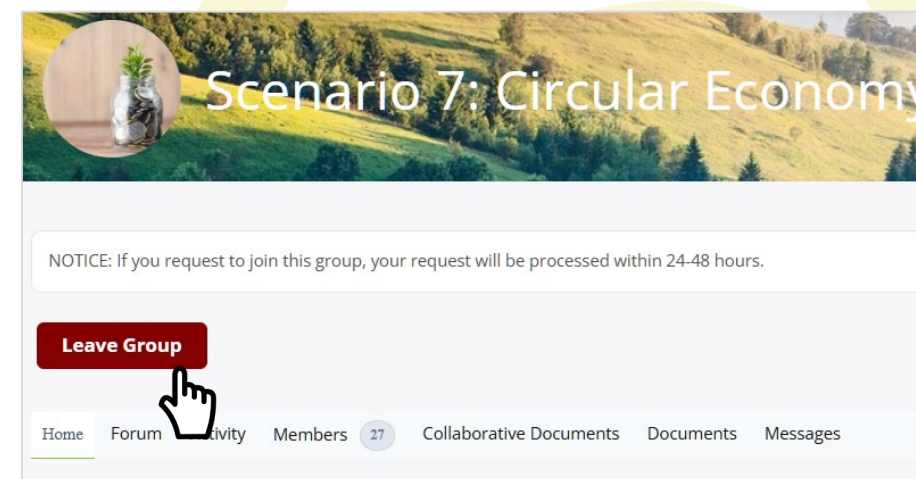

**Everyone has to request to be part of it!**

Once you have accessed to the private group of a collaborative space, you must send a request before becoming a member. Remember that you must be a registered member to request groups membership.

By clicking on **Request Membership** button, a notification will be sent to the group moderator. Once the moderator has accepted your request, an email will be sent to your personal email address.

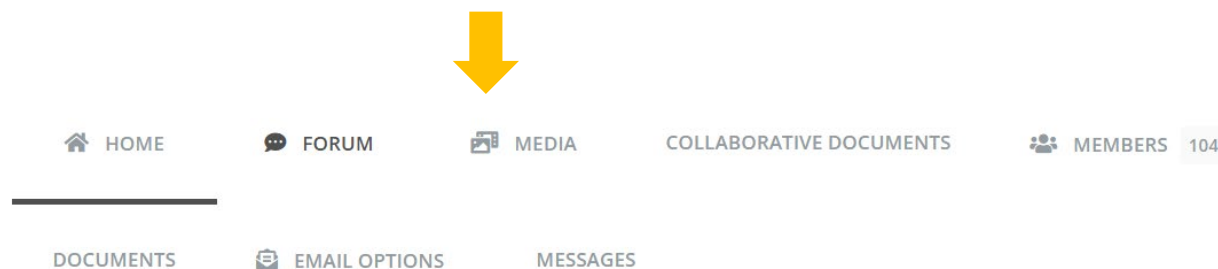

**Note: VET TEAMS collaborative areas are devoted for Eco-Digithon participants. For external stakeholders, they are allowed to join to the SCENARIOS, NATIONAL and INTERNATIONAL CHAPTERS working groups.**

**You can leave a working group at any time, by clicking in the **Leave Group** button**

Once you are member of a working group, you can access the collaborative space, which offers different functionalities and tools to allow collaboration among members.

**Let's take a look at the main menu and explore all the possibilities**

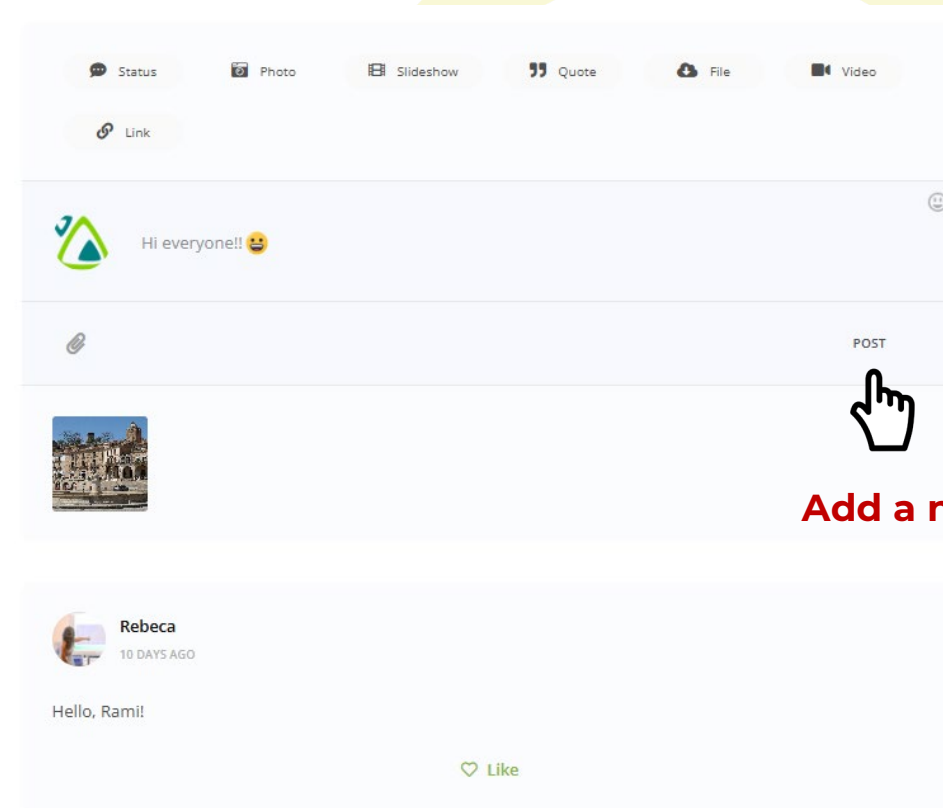

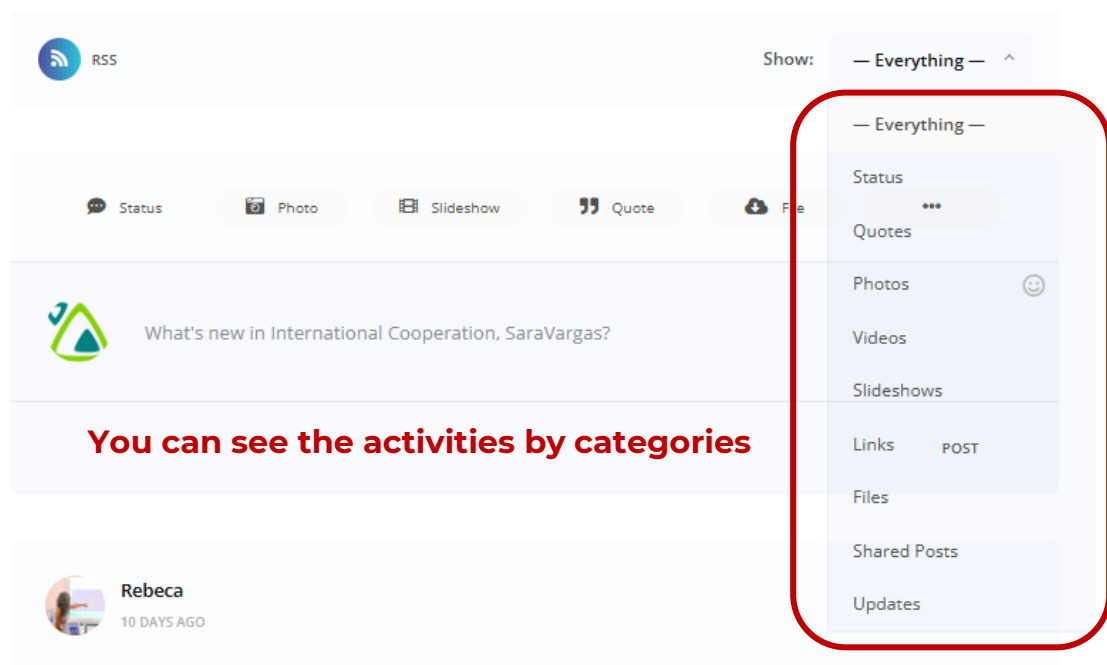

**Bear in mind is that this explanation is the same for any private group in any collaborative space, as they all have the same features.**

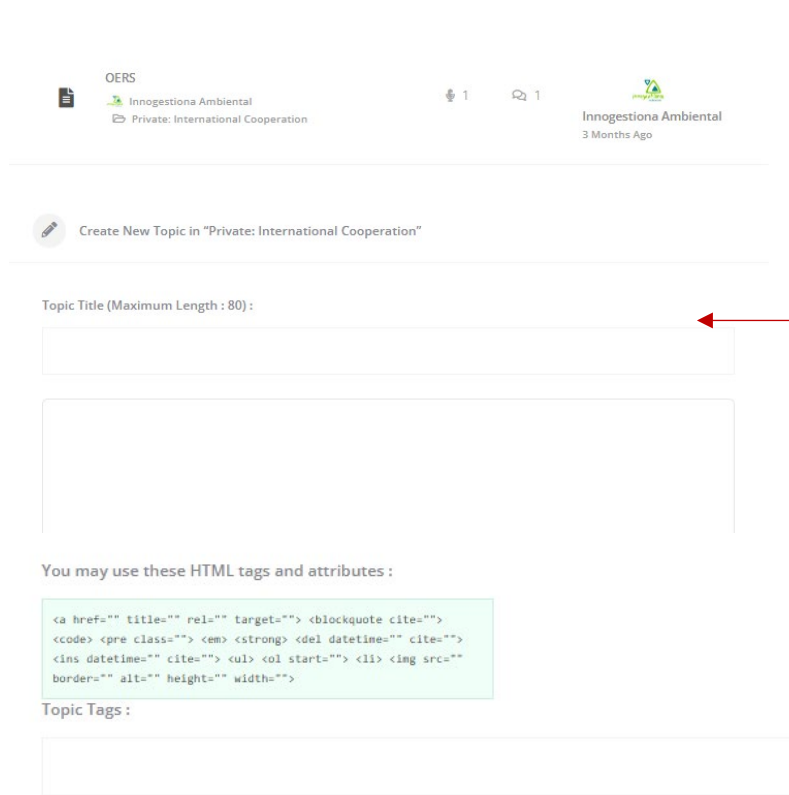

Click on the following elements to directly access to their corresponding sections

- 
1. [Home](#)
  2. [Forum](#)
  3. [Media](#)
  4. [Colaborative documents](#)
  5. [Members](#)
  6. [Send invites](#)
  7. [Documents](#)
  8. [Email Options](#)
  9. [Messages](#)

In the **Home tab**, you can see the group's activity, as well as users' posts. These posts can be messages accompanied by emojis, images, videos, documents, etc. If you wish, you can delete the post. In addition, your posts can receive likes.

The Forum tab is organized by **topics**. In the main page, you can see all **active topics** with information on its activity (member who started the topic, number of participants -voices-, number of posts, and the date and author of the last post).

Hi,

In this forum, you can post any Open Educational Resources (OER).

For example: Study on New Mobility Patterns in European Cities – European Commission. Armoogum J., Garcia C., Gopal Y., Borgato S., Fiorello D., Maffii S., Mars K-J., Popovska T., Schlemmer L., Vincent V., Bogaert M., Gayda S. (English): <https://op.europa.eu/en/publication-detail/-/publication/adfc18f1-80e1-11ed-9887-01aa75ed71a1#>

Thank you so much.  
Greetings,  
Sara Vargas- Innogestiona Ambiental

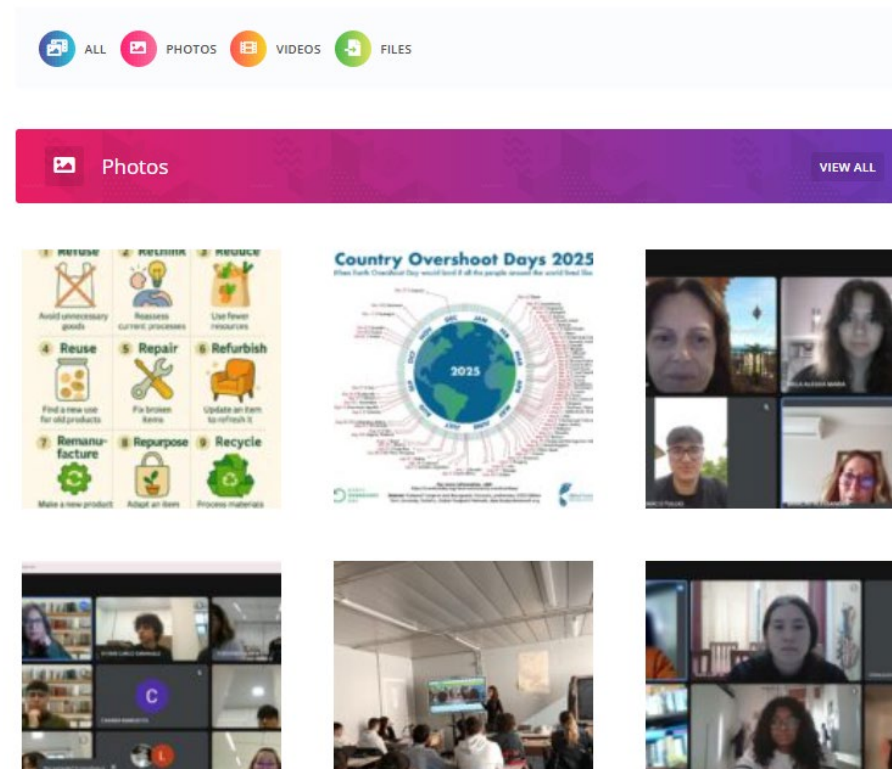

THIS TOPIC WAS MODIFIED 3 MONTHS AGO BY  INNOGESTIONA AMBIENTAL.

Body message of the entry.

Reply To: OERS

Below the topic, you can write a reply.

In the **“Media” tab**, you will find a wall where you can see all the photos, videos, and documents that have been uploaded to the group's home section.

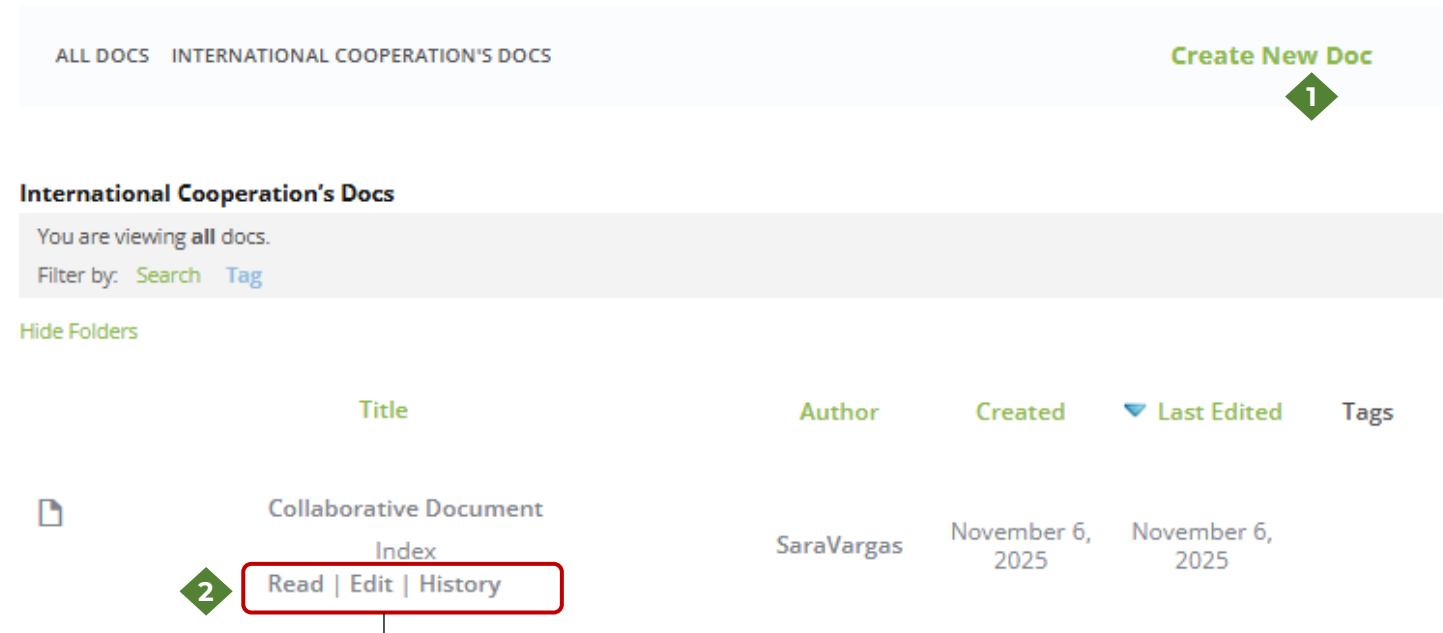

The **Collaborative Document tool** allows group members to work simultaneously in the same document

A list of **Collaborative Documents** created by any member is shown in the main page, with information about the Author, date of creation, date of last edition and tags associated.

In this page, any user can:

1. Start a new collaborative document by clicking on **Create New Doc**
2. Open an existing Collaborative Document to work on it.

The collaborative documents are specially designed for VET Teams to work on their weekly work reports and projects.

| Title                  | Author     | Created          | Last Edited      | Tags |
|------------------------|------------|------------------|------------------|------|
| Collaborative Document | SaraVargas | November 6, 2025 | November 6, 2025 |      |

If you hover over a document, options will appear under the document title. These options are: Read, Edit and History.

If we select the 'Read' option we will get a reading view of the document as shown below.

If we select the 'Edit' option we will have an image like the one shown here, in which it is distinguished:

Title --> To edit the title

Permalink --> Where you can edit the link

Content --> Where we have several options to edit the content (we will explain it below)

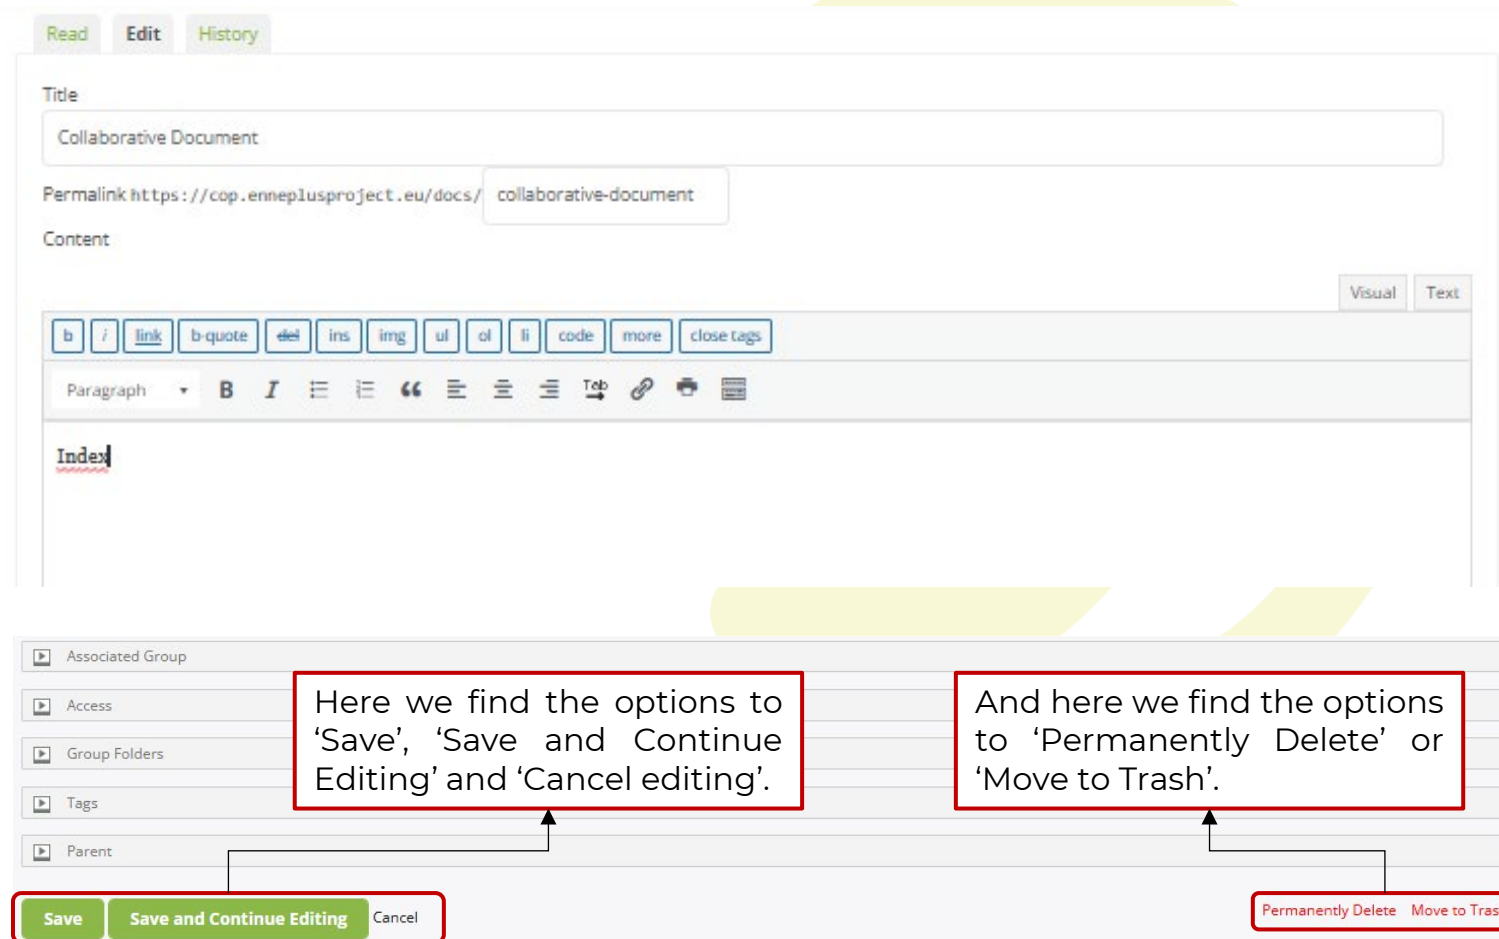

Associated Group --> Where we can change the private group to which the document is associated.

Access --> Where we can decide who can read and edit the document, read and post comments, and who can see the history of this document.

Group Folders --> Where we can assign or not this document to an existing folder or to one we create at the same time.

Tags --> To assign a tag already created or that we create at the same time to the document, which describes or classifies it.

Parent --> Never assign parent.

The screenshot shows the 'Edit' tab of a document titled 'Collaborative Document'. The interface includes a title field, a permalink field with the URL 'https://cop.enneplusproject.eu/docs/collaborative-document', and a content editor with a rich text toolbar. Below the content editor, there are sections for 'Associated Group', 'Access', 'Group Folders', 'Tags', and 'Parent'. At the bottom, there are buttons for 'Save', 'Save and Continue Editing', 'Cancel', 'Permanently Delete', and 'Move to Trash'. Red boxes and arrows highlight these specific areas.

In the **Members tab**, you can see all group members within the **Membership list**

You can see the members of the working group  
and search for a specific member

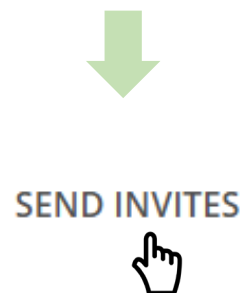

The screenshot shows the 'Members' tab interface. At the top, there is a search bar with the placeholder text 'Search Members...' and a 'SEARCH' button. To the right of the search bar, there is an 'Order By:' dropdown menu currently set to 'Newest'. Below the search bar, there are two member cards. Each card displays a profile picture (a black square), a name, and two buttons: 'Add Friend' and 'Message'.

You can see members sorted by the  
criteria shown below

You are allowed to interact with  
any member, you can also click on  
'Add friend', 'Cancel friendship  
request' and 'Cancel friendship',  
depending on what you want to  
do regarding your friendship  
inside the platform.

In the **Invite tab**, only for moderators, you can see all users that are not members of the group, classified in three categories:

Invite as many friends as you wish. Scroll to the bottom of the section and click on the send invitation button.

Sent Invites

Above the send request button, you will see all the requests you have sent, and you can delete the invitation if you wish.

Another section of the main menu of each private group is the **‘Documents’ tab**.

A repository of documents is available in the Documents tab, where any member can upload a new document.

It is highly recommended to upload documents in pdf format, as an online preview is available for this file type.

Documents is intended for uploading relevant documents that provide information of value to the interests of the group.

Save Settings

The **Messages tab** is like an instant chat.

You can send messages, including emoticons, and documents, pictures, videos, etc., in any format.

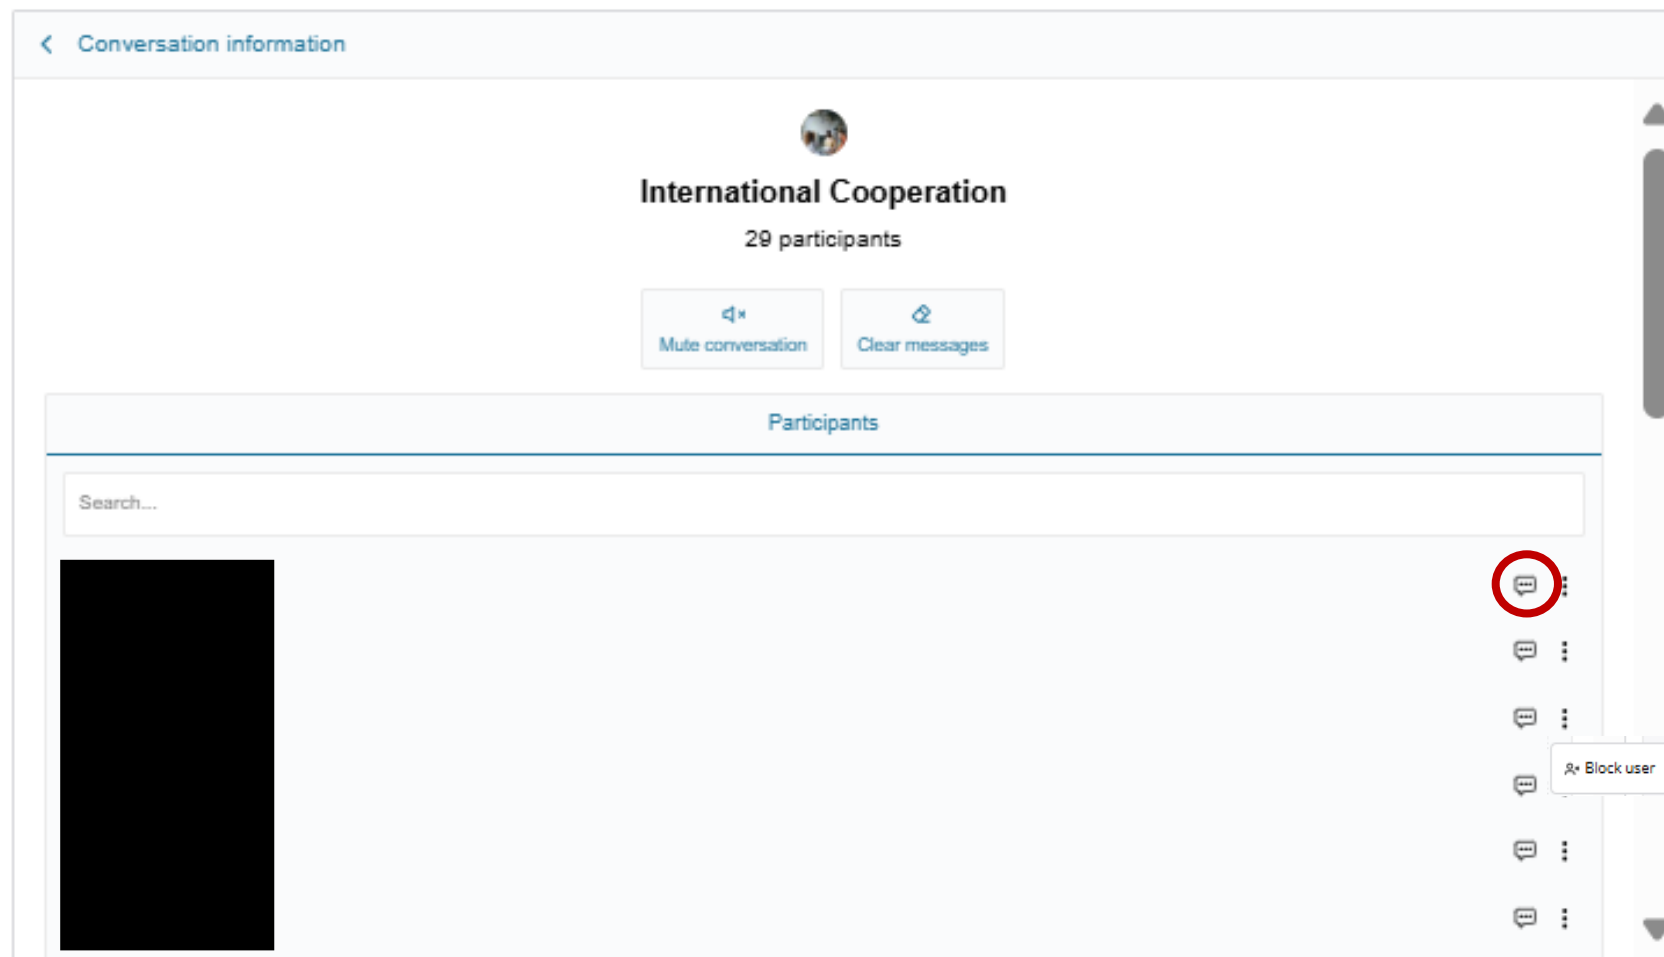

This 'Messages' section is intended to be the nerve center of operations for each private group, as it will act as the main means of communication between group members. For the international groups (Scenarios and International Cooperation), **here is a very important piece of news! -->** The **messages will appear in the language that the user has selected in the main menu of the platform**, so that regardless of the original language in which each user writes, the messages will be seen by the other users in the language in which they have the platform, **the translation is simultaneous**. And this is great news! As it allows communication to be fluid and facilitates the connection between people who speak very different languages.

Please, note that if you send messages within a private group, you will send a message to the whole group!

But you can also send private message to specific members of the group!

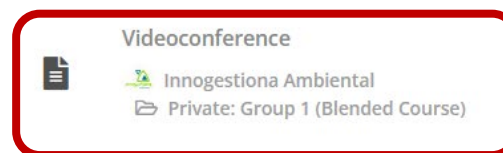

By clicking on the name of the group we can see the participants of the group, so that if we click on the message icon of a user we can send a private message only to that user, and thus we have a way to establish closer relationships with specific members.

The platform offers the registered users that are part of a private group to interact by videoconferencing!

The tool is available within the Collaborative Space for the VET teams and the Scenarios private groups.

Go to the Forum section and find the topic 'videoconference'.
